SUMMARY

Experienced Web Developer with 10+ years of expertise in building scalable, high-performance web applications. Strong background in backend-focused WordPress development, including custom plugins, themes, and advanced integrations. Proven experience in Headless WordPress architectures using modern frameworks like Next.js. Solid understanding of frontend technologies such as HTML, CSS, Bootstrap, Tailwind, JavaScript, and jQuery to deliver seamless end-to-end solutions. Adept at translating business requirements into robust technical implementations.

EXPERIENCE

May 2025 – Till Now

Full Stack Developer

Placid Digital Solutions Pvt Ltd. Indore

- Developed Trip Mitra Go, a full-stack cab booking platform featuring online reservations, dynamic route management, customer inquiries, multilingual support, and an admin dashboard, powered by Next.js and Python FastAPI.
- Built a scalable WhatsApp Bulk Messaging web portal using Laravel, featuring campaign management and real-time chat support.
- Developed an WCAG-compliant, accessibility-first website integrated with Digio Digital Sign G KYC, ensuring secure user onboarding and regulatory compliance.
- Built a headless WordPress architecture using GraphQL as the backend and Next.js as the frontend for high-performance, SEO-friendly web applications. Developed a Laravel-based REST API for a Bet Sports platform, powered by PostgreSQL, ensuring secure, scalable, and efficient data handling

Jan 2025 - May 2025

Full Stack WordPress Developer

cMapTechnika (Tech Mentor), Remote

Developed the CMAP Technika platform from scratch to production deployment, enabling users to publish, manage, and showcase their own articles through a secure, scalable content management system.

Apr 2024 - Nov 2024

Senior WordPress Developer Consultant

Aicerts (Netcom Learning), Gujrat (Remote)

- Contributing to an interactive online platform where users can engage in discussions, reviews, and peer interactions around certificates purchased from various portals, including the AICERTs store.

LANGUAGES

- English
●●●●●
- Hindi
●●●●●

- Designed and developed custom WordPress themes fully compatible with WooCommerce, including complete customization of all WooCommerce pages (shop, product, cart, checkout, and account) for structure and functionality.

Oct 2022 - Nov 2023

Senior WordPress Developer

Blenheimchalcot India Pvt Ltd

- Developed an organizational web network platform for lead generation across multiple channels, built on WordPress (Gutenberg) with ACF (Advanced Custom Fields) for structured, dynamic content management.
- Evaluated and onboarded Affino as a unified platform for CMS, CRM, events, leads, customers, and user management, gaining hands-on experience with its end-to-end ecosystem.
- Explored and implemented headless CMS solutions, including Strapi (Node.js, open-source), to understand modern content delivery architectures.

Feb 2022 - July 2022

Senior WordPress Developer

Nvish Solution LLP, Punjab

- Worked on multiple in-house WordPress projects involving ongoing maintenance and upgrades of core WordPress, plugins, and custom themes. Managed site stability, performance, and compatibility across updates while following best practices. Delivered multilingual implementations using the WPML plugin to support global audiences and localized content requirements.

Oct 2020 – Aug 2021

Senior WordPress Developer

Webnoise (Haptiq) Lab Private LTD, Pune

- Developed an advanced WordPress e-platform using the Bedrock framework, leveraging Roots.io/Sage theme, Docker, Lando, and WP-CLI for modern development workflows.
- Architected a multi-site MVC-based WordPress network to streamline maintenance and theme development across 10+ websites. Customized and extended premium WordPress plugins with bespoke features to meet complex business requirements.
